

BTW
Lesson 5
Lane Changes and Review

Objective: *Students will be able to make lane changes safely and will review one way streets in a different location than previously in lesson 4. We will also review parking up and down hill with a curb.*

Thought Question: *What three things keep ones vehicle from moving when parked up and down hill with a curb? What important steps should one take when pulling out from the curb? Why should one put the vehicle in park before setting the parking brake?*

When changing lanes follow these three steps in the following order:

- 1. Check the rear view mirror.*
- 2. Check the side view mirror (left side mirror for left lane change and right mirror for right lane change).*
- 3. Check the blind spot!!*
